## Pragmatic Derma Skin Care, ASIS-TOBE

In pursuit of simple and efficient skin care, "ASIS-TOBE" aims for better lifestyle with better skin than present.

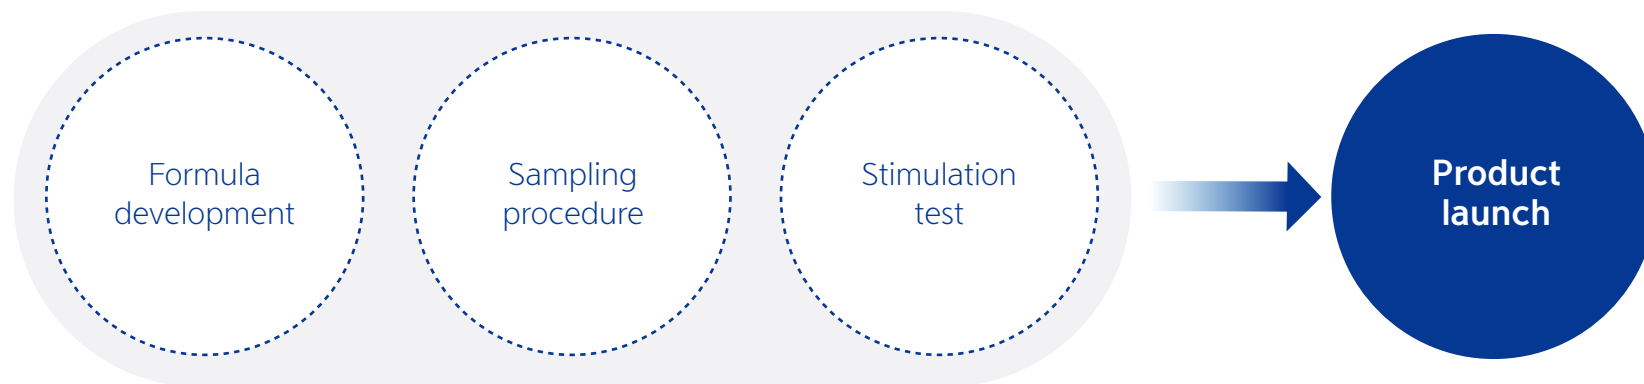

ASIS-TOBE offers mild formula that allow any skin type to feel comfortable. Hypoallergenic products are the perfect companion for anyone's daily skin care routine. Easy-to-use package and big-size bottles add practical value to the brand, while the price is still reasonable.

## Dermatologist Tested

ASIS-TOBE develops hypoallergenic (irritancy score = 0) cosmetic products that offer mild daily skin care for all skin (even sensitive skin), or any skin that has been irritated from external aggressors.

In order to find the best mixture of ingredients with the most stable formula, countless sampling tests must be done before launching any ASIS-TOBE product.

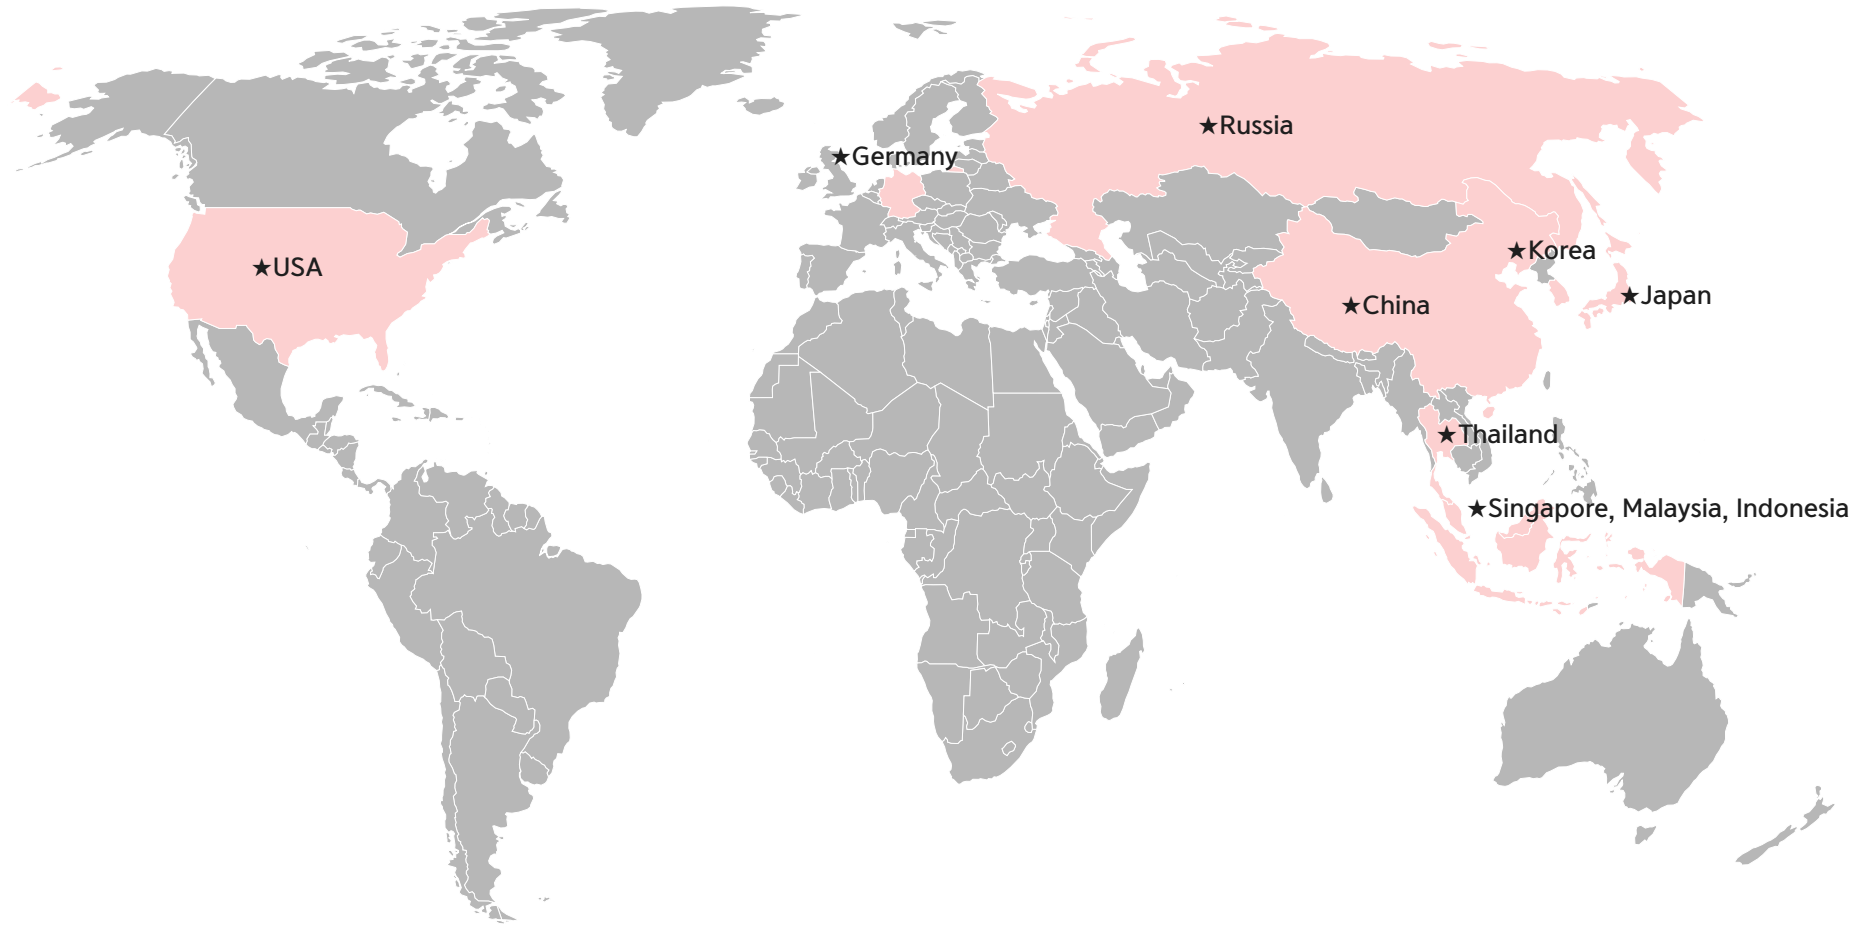

**DERMATOLOGIST TESTED** is ASIS-TOBE's brand signature that identifies hypoallergenic test-proved products.

## Slogan – No more, No less

In accordance with the brand's aim for simple and efficient skin care routine, ASIS-TOBE avoids using unverified ingredients and unnecessarily complex compounds. Fitted for one's skin type and trouble, a few simple selections are enough.
